After his return to Belgium, Count Van der Meere published a volume of memoirs, in which he gives an account of the part he took in the Revolution of 1830, and, without seeking to throw blame on others, endeavors to show the harmless nature of the plot in which he allowed himself to engage, the folly of which he very penitently acknowledges. Some of the reminiscenses of his younger days are interesting. It was after the English had landed at Walcheren that Napoleon, to make sure of the fidelity of his Belgium subjects, resolved on sending the sons of the principal families to military schools in France. A list was made out, and from Brussels the young Counts de Ribeaucourt, Cornet de Crez, Van der Delft, and Van der Meere, were ordered away without any consideration for the wishes of their parents.

The following is the summons sent to young Van der Meere: "Brussels, February 1, 1810 .- The Prefect of the Department of the Dyle to M. "Why didn't the poor fellow let us know his legs had given out?" cried Bugbie; "I don't want men to march if they're dead lame. Put him in the ambulance immediately." The order was obeyed, and, having thus made amends for his injustice to the drummer, the captain took the earliest opportunity of going to examine more particularly into his condition.

OFF FOR EUROPE.

The Spurious Widow Lowis Out of Beach of New Jersey Sheriffs.

[New York Sun.] The pretended widow of Joseph L. Lewis, of Hoboken, who left over a million of dollars to the United States Government, sailed for Europe on Saturday. The mode of her escape from the Hudson County authorities, who were watching to apprehend her upon the incharged by the United States authorities gray. A profusion of lace was worn in Trenton, was peculiar. She got permission to visit Jersey City on business,

It is understood that Mrs. Lewis goes to Europe to rejoin her friend, Gottlieb Schmidt, who figured conspicuously in the early stages of the pretended widow's contest of the probate of Mr. Lewis's merchant on Pearl street. He appeared as a witness on the widow's behalf, and testified that in November, 1858, the time of her alleged marriage with Mr. Lewis, he lived in Hoboken near Mr. Lewis's house, and was acquainted with him; that he had visited at Mr. Lewis's house, and was there introduced to the claimant as the wife of Mr. Lewis. When the counsel for the executors and for the Government subsequently began to push the investigation of the pretended widow's antecedents and surroundines. widow's antecedents and surroundings Mr. Schmidt's business took him to Europe, and it has kept him there since. The detectives found that Mr. Schmidt had for some time been a fellow boarder with Mrs. Lewis at No. 11 St. Mark's Place. A Herald personal setting forth that a young widow, American, was desirous of a situation as housekeeper for a widower had brought them together.

It was shown on the trial of the widow and her accomplices for conspiracy to defraud the Government that Mrs. Lewis had frequent interviews at 11 St. Mark's Place with Dr. Park, Marcus T. Sacia and Frank Allison, during which she was coached for her personation of the widow of the deceased millionaire. But in her testimony on behalf of the Government, in which she disclosed the details of the conspiracy, she seduously avoided mention of any fact that would implicate Schmidt.

Women's Pockets. [Springfield (Mass.) Republican.]-

"Oh, dear," sighed a young woman after exploring the festoons and furbelows of her new spring suit with a desperate air for some time, "I do wish dressmakers would put in a pocket. "Well, let us see, four and three is seven and four is eleven, but I mean to have another put in my vest right away, and an inside one on both sides of my coat would be handy. Father carries things sometimes in his hat, but I can generally get along with about a dozen pockets." We submit that pockets are a privilege which must be opened to the sex.
